ACO's and the Changing Landscape: What to Know and How to Prepare

Jef Williams, MBA, PMP
Vice President, Ascendian Consulting

Shawn McKenzie, MPA
President & CEO, Ascendian Consulting

What We'll Cover

- Overview of the ACO Model
- Early ACO Policy & Adopters
- The Impact of ACO on Imaging
- Suggestions for Preparation

Slide 1

NS7 Formatted to eliminate ineffective phase break.

ACO: Accountable Care Organization

- Who's Idea was this Anyway?
 - More than half Medicare beneficiaries have 5 or more chronic conditions (I.e. diabetes, arthritis, hypertension, kidney disease)
 - 1 in 5 Medicare patients discharged from hospital are re-admitted within 30 days
 - Kaiser Family Foundation's recent report found US spending 51% higher per capita than next largest spender (Norway)

ACO: Accountable Care Organization

Definition of ACO

“an ACO refers to a group of providers and suppliers of services (e.g., hospitals, physicians, and others involved in patient care) that will work together to coordinate care for the Medicare Fee-For-Service (FFS) beneficiaries they serve. The goal of an ACO is to deliver seamless, high quality care for Medicare beneficiaries, instead of the fragmented care that has so often been part of FFS health care. The ACO would be a patient-centered organization where the patient and providers are true partners in care decisions.” *Source: CMS.gov*

ACO: Accountable Care Organization

Proposed Policies of ACO

- Governing body representing ACO providers of services, suppliers and Medicare beneficiaries
- Submit Application and Plan to Deliver
- At least 5000 beneficiaries
- Period of at least 3 years
- Reporting requirements that measure quality of care and cost at patient and episode level
- Inclusion not automatic

Slide 7

NS1 This slide is a little busy. Is there a way you can say all this without so much writing? As the audience, If I am reading this I will not be listening to you and vice versa.

suggestion- you can lay out the definition and then maybe put the goals as bullets.

Neil Singh, 7/1/2011

ACO: Accountable Care Organization

The Components of an ACO

- ACO professionals (i.e., physicians and hospitals meeting the statutory definition) in group practice arrangements
- Networks of individual practices of ACO professionals
- Partnerships or joint ventures arrangements between hospitals and ACO professionals
- Hospitals employing ACO professionals
- Other Medicare providers and suppliers as determined by the Secretary

ACO: Accountable Care Organization

The ACO Timeline

- Proposed rule and public comment period closed
- Final rules scheduled to be issued "later this year"
- Pioneer ACO apps due August 2011 (pilot program)
- Scheduled launch of Shared Savings Program is 2012

ACO: Early Adopters

- Will you launch an ACO in the next 12 months?

ACO: Impact to Imaging

- Better care, lower cost – Getting rid of “re”
 - Re-ordering
 - Re-scheduling
 - Re-imaging
 - Re-reading ^{NS6}

ACO: Impact to Imaging

- **Reduced / modified revenues**
 - Standardized Workflow
 - System Optimization
 - Reduced System / Operation Costs
 - Archive Intelligence / Image Lifecycle Management (ILM) ^{NS2}

Slide 16

NS2 **Spell-checked**
Neil Singh, 7/1/2011

ACO: Impact to Imaging

- Risk of Commoditization
 - Paradigm Shift in Radiology Consulting Model
 - Optimized Workflow and System Efficiency will only get us so far
 - Exam + Report = Commodity
 - Decision Support & Consultative Services
 - Data Mining / Business Analytics

ACO: Impact to Imaging

- Share of patient risk
 - Participate in OE/DS
 - Become leading experts in Utilization Management
 - Carefully manage Preps, Allergies, etc.

ACO: Key Risks & Benefits

Risks

- Commoditization
- Reduced Revenue
- Confusion over Specifics
- Shared Savings “Pot ‘O Gold”

Benefits

- Focused spending on IT improvements (*know what you need and make it known!*)
- Improved patient experience
- Disruptive market forces that will drive re-imagination

NS3

ACO: How to Prepare - Business

- Focus on what you do know
- Current state assessment
 - Organizational / Professional
 - Technological / Interoperability
 - Clinical / Patient Care Model

Slide 19

NS3 **Advanced technology- Multimodality. Another option.**
Neil Singh, 7/1/2011

ACO: How to Prepare - Infrastructure

- Image & Report Access across Enterprise in One Location
- Simplify Interface Management (System Consolidation)
- Standardize Exam Codes (SNOMED)
- Relevant Data Captured and Updated
- Enable Reporting, Business Analytics/Intelligence
- Standardize Protocols
- 3rd Party Application Management
- Intelligent Archiving for Accuracy, Lifecycle Mgmt. Cost Avoidance

NS5

ACO: How to Prepare - Relationships

- Relationship with Administration
- Relationship with IT
- Relationship with Radiologists
- Relationship with Affiliated and Non-Affiliated Physician Groups

Slide 21

NS5 **fixed punctuation**
Neil Singh, 7/1/2011
