

“ANYTIME
ANYWHERE
AT YOUR
CONVENIENCE”

VERY COST EFFECTIVE TRAINING FOR SONOGRAPHERS

The Burwin Institute offers an efficient and cost effective way of helping sonographers upgrade their knowledge of Abdomen, Obstetrics and Gynecology, or study for new disciplines; such as, Breast Ultrasound, Musculoskeletal Ultrasound, Vascular Ultrasound, Echocardiography etc.

Most Burwin courses are worth **30 CME/CE credits**.

No travel or accommodation costs involved to obtain the theory needed to perform the various diagnostic ultrasound examinations requested by physicians. **This greatly reduces expenses and saves a lot of time.**

Burwin courses provide all the **theory** needed to perform ultrasound examinations and successfully write the Registry examinations. **There is no need to purchase any textbooks.**

Burwin courses more than meet the classroom hour requirements of the Registry and meet the requirement of the professional bodies for continuing medical education.

X-ray technologists can use the Burwin courses to cross-train into ultrasound.

Check out **www.burwin.com** for course details and online registration
